## Triloma EIG Energy Income Fund

### Investment Portfolio Overview

The information contained in this section should be read in conjunction with the following attached Schedule of Investments.

The following table summarizes the composition of the Fund's investment portfolio, excluding Short Term Investments, by investment type at fair value and enumerates the percentage, by fair value as of March 31, 2017:

Asset Types	Fair Value	Percentage of Portfolio
Senior Secured Debt	\$ 2,585,150	28.7%
Senior Unsecured Debt	6,437,324	71.3%

The table below describes investments by industry sub-sectors and enumerates the percentage, by fair value, of the total portfolio assets in such industry sub-sectors, excluding Short Term Investments, as of March 31, 2017:

Sub-Sectors	Fair Value	Percentage of Portfolio
Upstream	\$4,054,415	44.9%
Midstream	2,011,053	22.3%
Power	1,376,969	15.3%
Renewables	1,098,827	12.2%
Downstream	481,210	5.3%

The table below describes investments by country and enumerates the percentage, by fair value, of the total portfolio assets in such countries, excluding Short Term Investments, as of March 31, 2017:

Country	Fair Value	Percentage of Portfolio
United States	\$7,882,912	87.4%
Congo-Brazzaville	975,926	10.8%
United Kingdom	163,636	1.8%

<b>Shares Outstanding</b>								<b>333,003</b>	
<b>Net Asset Value Per Common Share</b>								<b>\$26.71</b>	

As of March 31, 2017, the Fund's investments were categorized as follows in the fair valuation hierarchy:

	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Investments in Securities				
Congo-Brazzaville	\$ —	\$ —	\$ 975,926	\$ 975,926
United Kingdom	—	—	163,636	163,636
United States	—	7,632,883	977,816	8,610,699
Total Investments in Securities	\$ —	\$ 7,632,883	\$ 2,117,378	\$ 9,750,261

**Triloma EIG Energy Income Fund**  
**Schedule of Investments**  
**March 31, 2017 (Unaudited)**

**Portfolio Composition**

ASSET TYPE	
Senior Secured Debt	29.0%
Senior Unsecured Debt	72.1%
Money Market	8.2%
Warrants	0.3%
Other Assets and Liabilities	-9.6%
	100.0%

The following is a reconciliation of the investments in which significant unobservable inputs were used in determining value:

Investment in Securities	Beginning Balance at December 31, 2016	Purchases	Sales (g)	Accrued Discounts (Premiums)	Total Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation) (h)	Net Transfers into (out of) Level 3	Ending Balance at March 31, 2017	Net Change in Unrealized Appreciation (Depreciation) on Investments Held at March 31, 2017 (h)
Congo-Brazzaville	\$ -	\$ 820,333	\$ -	\$ 579	\$ -	\$ 155,014	\$ -	\$ 975,926	\$ 155,014
United Kingdom	-	161,999	-	19	-	1,618	-	163,636	1,618
United States	357,298	620,387	-	(5,025)	-	5,156	-	977,816	5,156

The following table summarizes the quantitative inputs and assumptions used for items categorized as recurring Level 3 assets as of March 31, 2017. The following disclosures also include qualitative information on the sensitivity of the fair value measurements to changes in the significant unobservable inputs.

Investments in Securities	Fair Value at March 31, 2017	Valuation Techniques	Unobservable Inputs	Ranges (Average)	Impact to valuation from an increase in input
Congo-Brazzaville	\$975,926	Discounted Cash Flow	Discount Rate	0% - 4.6% (4.6%)	Decrease
			Contractual Terms	\$1.205 - \$1.205	Increase
United Kingdom	\$163,636	Cost	Contractual Terms	100%	Increase
United States	\$977,816	Contractual Terms	Redemption Transaction	100% - 102% (101.5%)	Increase
			Contractual Terms	100%	Increase

The unobservable inputs used to determine fair value of recurring Level 3 assets may have similar or diverging impacts on valuation. Significant increases and decreases in these inputs in isolation and interrelationships between those inputs could result in significantly higher or lower fair value measurement.

(a) Denominated in U.S. Dollars, unless otherwise noted.

(b) Securities are categorized as Level 3 securities under the fair valuation hierarchy. The total value of Level 3 securities is 23.8% of the Fund's Net Assets.

(c) Fair valued as determined in good faith in accordance with procedures established by the Board. At March 31, 2017, total aggregate fair value of investments is \$2,117,378, representing 23.8% of the Fund's net assets.

Triloma EIG Energy Income Fund  
Schedule of Investments  
March 31, 2017 (Unaudited)

(d) Restricted securities held by the Fund as of March 31, 2017 are as follows:

Investments	Company	Acquisition Date	Acquisition Cost	Value	Value as Percentage of Net Assets
United Kingdom	Bioenergy Infrastructure Holdings	2/16/2017	\$163,636	\$163,636	1.8%
United States	Crown Oil Partners V, LP	9/9/2016	346,500	359,066	4.0%
Congo-Brazzaville	New Age	1/20/2017	820,333	975,926	11.0%
United States	Northeast Natural Energy	3/2/2017	618,750	618,750	7.0%
			<u>\$1,949,219</u>	<u>\$2,117,378</u>	<u>23.8%</u>

(e) Payment-In-Kind. Income may be received in additional securities and/or cash.

(f) Aggregate cost for federal income tax purposes is \$9,546,784. Aggregate gross unrealized appreciation and depreciation for all securities is \$236,887 and \$(33,410), respectively. Net unrealized appreciation for tax purposes is \$203,477.

(g) Sales include all sales of securities, maturities, paydowns and securities tendered in corporate actions.

(h) Any difference between net change in unrealized appreciation/(depreciation) on investments held at March 31, 2017, may be due to an investment no longer held as a Level 3 or transferred into/out of Level 3.

(i) Rates disclosed reflect the 1-day yield at March 31, 2017.

(j) Security exempt from registration under Regulation S of the Securities Act of 1933, which exempts from registration securities offered and sold outside the United States. Security may not be offered or sold in the United States except pursuant to an exemption form, or in a transaction not subject to, the registration requirements of the Securities Act of 1933. At March 31, 2017, the value of the Regulation S security is \$610,692, representing 6.9% of the fund's net assets.

(k) Non income producing.

(l) Warrants have exercise price of \$4.00.

**Securities Valuation**

*Processes and Structure*

Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available, including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded, or, if there is no such reported sale, at the most recent quoted bid price. Values of debt securities are generally reported at the last sales price if the security is actively traded. If a debt security is not actively traded it is valued at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Debt obligations with remaining maturities of sixty days or less for which market quotations are not readily available may be valued at their amortized cost, provided such amount approximates market value.

Securities for which market prices are not “readily available” are valued in accordance with fair value procedures established by the Triloma EIG Energy Income Fund’s (“Fund”) Board of Trustees (“Board”). The Fund’s fair value procedures are implemented by the advisor, Triloma Energy Advisors, LLC (“Advisor”) as designated by the Board. Factors considered in valuation may include information obtained by contacting issuer or analysts, analysis of the issuer’s financial statements and, if necessary, information concerning other securities in similar circumstances. When a security is valued in accordance with the fair value procedures, the Advisor will determine the value after taking into consideration relevant information reasonably available to the Advisor.

*Hierarchy of Fair Value Inputs*

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. generally accepted accounting principles (“GAAP”), the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;
- Level 2 — Other significant observable inputs, which may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in inactive markets, etc.; and
- Level 3 — Unobservable inputs, which may include management’s own assumptions in determining the fair value of investments. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the sub-advisor, issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer’s financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

All transfers, if any, are recognized by the Fund at the end of each period. For details of the investment classifications, refer to the Schedule of Investments for the Fund.

During the period ended March 31, 2017, there have been no significant changes to the Fund’s fair value methodologies.

*Fair Value Measurements*

Descriptions of the valuation techniques applied to the Fund’s significant categories of assets and liabilities measured at fair value on a recurring basis are as follows:

*Corporate bonds:* The fair value of corporate bonds is estimated using various techniques, which consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments. While most corporate bonds are categorized in Level 2 of the fair value hierarchy, in instances where lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they are categorized in Level 3.

*Money Market:* As permitted by compliance with certain conditions under Rule 2a-7 of the 1940 Act, securities are valued at amortized cost which approximates fair value. Government Money Market Funds value all security positions using amortized cost, which approximates fair value. To the extent the inputs are observable and timely, the values are generally categorized in Level 2 of the fair value hierarchy, or Level 3 if inputs are unobservable.

Triloma EIG Energy Income Fund  
Notes to the Schedule of Investments  
March 31, 2017 (Unaudited)

---

*Warrants and Rights:* Warrants and Rights which are listed on major securities exchanges are valued at their last reported sales price as of the valuation date or, if there is no reported sale price, at the midpoint of the most recent quoted bid and ask prices at the close of business. Depending on the frequency of trading, listed warrants and rights are generally classified as Level 1 or 2 of the fair value hierarchy. Warrants and Rights which are not listed on major securities exchanges are fair valued by the Valuation Committee and are classified as Level 3.
