Triloma EIG Global Energy Funds Declared Effective By The SEC

ORLANDO, Fla. and WASHINGTON (August 3, 2015) — Triloma Financial Group (“Triloma”) and EIG Global Energy Partners (“EIG”) announce that registration statements pertaining to an initial public offering of \$2 billion in common stock of Triloma EIG Global Energy Fund and Triloma EIG Global Energy Term Fund I (the “Funds”) are now effective.

The Funds are unlisted investment companies that will invest primarily in a global portfolio of privately originated energy company and project debt.

The Funds are managed by Triloma Energy Advisors and EIG Credit Management Company and seek to raise capital with the issuance of common stock through a best efforts, continuous public offering.

“We are thrilled to bring this unique product to market,” said Barry Goff, managing director of Triloma. “We believe EIG’s singular focus on providing capital to energy companies and energy-related infrastructure and resource projects represents a significant competitive advantage for the Funds relative to other energy capital providers.”

“Our 33-years of experience in the energy sector give us confidence that now is an attractive time to create the Funds to take advantage of the energy market fundamentals,” said R. Blair Thomas, chief executive officer of EIG. “The demand for capital in the sector is vast, and EIG is uniquely positioned to capture the opportunities this demand creates due to our global platform, track record, and ability to invest in all aspects of the energy value chain.”

“We have a unique approach to shareholder liquidity that has driven an innovative dual-product structure for the Funds,” said Deryck Harmer, president and chief executive officer of Triloma EIG Global Energy Fund and Triloma EIG Global Energy Term Fund I. “Specifically both Funds pursue an identical investment strategy and co-investment opportunities, while the Perpetual Fund is structured as an evergreen product and the Term Fund is structured with a finite life. We believe this new solution of customized liquidity provisions will be well received by the market in light of the current regulatory and competitive environment.”

About Triloma EIG Global Energy Fund and Triloma EIG Global Energy Term Fund I

Triloma EIG Global Energy Fund and Triloma EIG Global Energy Term Fund I (the “Funds”) are unlisted investment companies that invest primarily in a global portfolio of privately originated energy company and project debt. Their investment objectives will be to provide shareholders with current income, capital preservation and, to a lesser extent, long term capital appreciation. The Funds will be managed by Triloma

Energy Advisors and EIG Credit Management Company, and offer individuals an opportunity to invest in U.S. and non-U.S. energy companies and projects, in many instances alongside institutional investors.
